2025

Descripción

We will visit the impressive **Research and Innovation Center** of **Viña Concha y Toro**.

There will be presentations on the winery's various innovation projects in **biological inputs**, and we will tour the laboratories of the main research lines of the Center:

- Intelligent Wine Industry
- Sustainability and Circularity Program
- Genetic Resources and Plant Health
- Climate Change and Wine Quality
- Wine Development, Prototyping, Consumers

We will also be joined by several international speakers participating in the **5th Bioestimulants Latam & Redagícola Biocontrol Congress**.
